PROBLEM STATEMENT

Many students and professionals struggle to showcase their skills and achievements in a structured and creative way. Traditional resumes often fail to reflect personality, creativity, and technical expertise. Hence, a digital portfolio is necessary to bridge this gap."

Project overview

This project is a digital portfolio website designed to showcase my academic background, technical skills, and career aspirations. It serves as a personal branding platform where I present my projects, certifications, and achievements in a structured and visually appealing format. Built using HTML, CSS, and JavaScript, the portfolio is responsive and user-friendly, making it accessible across devices.
